

reMYND is a biopharmaceutical company focused on the development of treatments against protein-misfolding disorders, with two business units:

- ✦ The Drug Discovery and Development (DDD) unit, driving our own pipeline of disease-modifying treatments against diabetes, Alzheimer's, Parkinson's and orphan diseases
- ✦ The CRO unit, a world-wide leader of preclinical Alzheimer's disease contract research in our proprietary transgenic mouse models

Open Position: Lab Technician – iPSC technology

Your role:

Supporting the expansion of reMYND's **iPSC unit**:

- Performing iPSC culturing, iPSC differentiation into various cell types depending on the indication ...
- The day-to-day management of the iPSC cell culture lab (good laboratory practice, follow-up of protocols, training others, documentation...)
- Optimization of cellular assays with iPSC-derived cells, focused on compound efficacy testing and mode-of-action studies for various indications (Alzheimer's, Huntington's, diabetes, ALS etc.) using diverse techniques:
 - Transfections
 - Biochemical analyses (i.e. ELISA, Western Blot, ICC, ...)
 - qPCR
 - ...
- Analyzing data and documenting findings
- Suggesting improvements in the methods and assays
- Working in a team of equal minded colleagues under the supervision of a project leader
- Planning your own activities on a weekly basis in consultation with team members in order to deliver the results
- Occasionally supporting the in-vivo teams with their ongoing mice studies

Your background, skills and attitude:

- Holder of a Bachelor in biomedical laboratory technology, bio(-medical) sciences, biotechnology or equivalent
- Prior hands-on experience in iPSC technology is a must
- Able to perform in-vitro studies under supervision by following closely assay protocols
- Strong organizational skills
- Willing to learn laboratory animal handling and treatment. Felasa B certificate is a plus.
- An entrepreneurial, results oriented, outgoing attitude with a high level of energy; able to work closely in a team; eager to learn new techniques
- Familiar with MS Word and Excel
- Fluent in Dutch and English
